SO YOU GONNA KILL SOME BABIES?

by Founder James E. Ford

Hispanics, Arabs, Whites and Blacks. So you say you have a few reasons for not taking this vaccine. You say the vaccine might make you sick. And they're gonna put a chip in you. And you don't know what's in the vaccine.

Well, do you know what's on the lips of people who pass those nasty Blunts and Hookahs' around? You don't know what's on the lips of your New Love. You might get a little weak when you take the vaccine, but you might Die if you don't. And it's silly to think that they might put a chip in you...Because everybody already know where you are. If you have a credit card, drivers license, or a bank account. Or been to a dentist or a doctor. Think, most don't care where you are anyway.

My people, you should recognize that a new killer variant is coming from India. The news says it may be the most deadliest yet. Recognize if this new variant hits these children, ambulances will be running all night, and their blood will be on your hands. All because you didn't listen to the news, but to a friend that thinks everybody is out to get them. And if someone is selling you something they think will combat this killer variant, you might end up dead, your children suffering and your money in their pocket. Remember the vaccine is free and tested. Lastly, if you are not taking it because it is free you should see someone who has a license in Clinical Psychologist, 99% of all the people that are dying from the virus have not taken the vaccine REALTALKNEWSLETTER.COM

A BREATH OF FRESH AIR FOR ALL NATIONALITIES

Obama Weekend Postponed 2021

2021 Obama weekend can be celebrated, but it must be at home, because of C19 restrictions throughout the United States. The Obama weekend is always the first weekend in August. Obama weekend Founder, James Ford encourages all to fully celebrate at home. Hopefully. In Every City and State.

Reasons For The Obama Weekend

Without a doubt we honor the legacies of Barack Obama and Michelle Obama. Because of their Love and Respect For All people. The birth of Obama Weekend started in Detroit, Michigan by Founder James Ford with a gathering at Bert's Warehouse in Detroit on Saturday, August 4, 2018. There were about 250 people of all Nationalities, who celebrated. They were singing and dancing and all types of Food and Beverages. There were Children in attendance also. And the Festival was so Grand that the 2019 Festival was celebrated with twice as many people at Berts'.

Founders Insight

After listening to President Barack Obama's Farewell Address to the Nation, Obama Weekend Founder, James Ford said, "I Just wish I Had one More Day Of Obama", and he fell asleep and dreamed that he was at an

Obama Day Celebration and that Dream turned into a Reality with what we now call THE OBAMA WEEKEND, which is always the first weekend in August.

Should The Obama Weekend Be Celebrated?

Because we never want to forget The Love This President and First Lady had for the Nation. They will always be admired for their Dignity, Integrity and Character. They Are True Role Models For All Youths.

Find Me A Better Role Model Than Barack Obama

I have asked in several states and cities, and outside the United States, to find me a better role model than Barack Obama, and I have no challenges. That is the main reason we celebrate the First Weekend in August Every Year.

The Official Obama Weekend Vehicle can be seen at different venues throughout DETROIT and is now being requested in other cities. For info & to bring the vehicle to your area... CALL - 586 918 3061

Southern Brothers

Tim Scott and Lindsey Graham - both Republicans from the state of South Carolina. I have said numerous times that the Republican Party of Lincoln and even of Reagan is no longer. That begs the question as to the allure and allegiance to this group that has now defined itself as an entity of racism and fully aligned with the promotion of judicial inequity. The fact that you have someone that offers the same rhetoric as Lindsey Graham yet looks like me is more than disturbing. This is why we MUST be involved in all political processes and not rest on the fact that one of our greatest Presidents was a black man. Just because they look like you doesn't mean that they will do right by you, as Senator Scott has shown. Don't stick your toe in the water people, the water is warm, jump all in with your votes. Hold ALL equally accountable and pay attention!
